

A February Valentine's Day Reflection and Invitation

The Warmth of Love Amidst Winter's Teasing

13.7 billion years ago ...

LOVE that could not contain Itself

Kept birthing Itself anew ...

In the beginning was the WORD

And the WORD was LOVE ...

Timeless LOVE...all embracing LOVE...unconditional LOVE ...

Could LOVE be all there ever was?

Could LOVE be all there is?

Could LOVE birth our world anew?

What if LOVE alone could be our measure?

You are Embodied Love ... I am Embodied Love ...

Let us together continue to learn what that means ...

In the stillness of winter, listening to Love ...
